

INTERWORKS **EQ**

SYSTEM

Sometimes
the simplest solution is the
smartest solution.

The Interworks EQ panel system provides everything you need to set up workspaces, without any of the usual hassles. Straightforward components make it a cinch to understand, plan, specify, install and reconfigure. Clean lines and durable construction mean the system looks as good years from now as it did the first day it was installed. Plus, Interworks EQ integrates with other innovative Kimball Office products, so you can make a functional, productive and visually coherent office, without breaking a sweat.

sectional panels: fabric: Reflection Copper, Tuscany Chili; metal: Graphite
trim: Graphite

Footprint components

worksurfaces: laminate: Mission Sand with Sandstone edge
overhead storage: open shelf and receding door overheads: Sandstone
undersurface storage: flat profile, extended pull: Sandstone

seating: Xtreme, Cathedral York

Improve the productivity of people by improving the productivity of space.

With Interworks EQ, you can build workspaces that are highly functional and won't bust your budget, but will still be interesting and inspiring to employees. With just a few key components, including our innovative hinge

Snap in and plug in.

Interworks EQ features increased data cable capacity and an improved electrical system that reduces installation time.

The top-channel has enough capacity to lay in as many data cables as required for today's high-tech work force. And you can set up data and electrical plug-ins at either the mid or base wireway.

worksurfaces: thermofoil: Antique White
storage: flat profile, dome pull: Platinum Metallic

seating: Wish, Cathedral Stonehenge

Make hard work a little less difficult.

With Interworks EQ, you can make workspaces that accommodate every job function, from welcoming reception areas, to offices that let staff meet, greet, strategize, confer and get more out of every hour of

Build up, build out, build beautiful.

Panels present a slender 2" profile and come in a wide range of heights and widths, along with new stacking and sectional options. You can go from 18" wide by 34" high, up to 60" wide and 80" high, to create any office from open plan to semi-private in a single specification. Panels are available in dozens of fabrics and clear glass for dressing your offices up or keeping things casual, while fabric-wrapped corner pieces add an elegant finishing touch.

the day. A wide range of sectional and stackable panels improve functionality, communicate professionalism and express your company's individual style.

sectional fabric panels: outside: Luster Flax; inside: Linen Paraffin
stackable panels: clear glass, Sandstone

work tools: Antique White

seating: Wish, Spectrum Charcoal

Stop by or stay awhile.

A range of panel heights and material finishes allow you to create workstations for every functional requirement, so anyone from managers to administrators, temporary workers to salespeople, can get into the office and get

Walls get to work, with Traxx.

Kimball Office's exclusive Traxx allows you to mount panels, storage, worksurfaces and tools directly to building walls, giving you more planning flexibility and making vertical space more efficient. Marker board tile lets you keep the important information front and center.

down to work. Plus, Interworks EQ is designed for ease of use and constructed for durability, making it easy to reconfigure to accommodate growth and change.

fabric panels: H²O Dew
tiles: marker board: Antique White

Traxx: Cinder

Footprint components
worksurfaces: thermofoil, Antique White
overhead storage: bevel profile, receding door overheads: Dark Chocolate
undersurface storage: flat profile, span pull: Dark Chocolate with Route 66 Rock Cafe cushions

seating: Wish, Route 66 Mustang Corral

It all comes together.

With Interworks EQ, ordering and inventory management is simplified. Our unitized panels come standard with top cap, wireway covers, panel hinges, glides and a carpet gripper. And Kimball Office also offers a quick ship program that gets product out the door and on its way to you, fast.

Make a better impression.

With Footprint worksurfaces, storage and supports, you can design offices to suit any style, satisfy any need. Not only will you find desking in a variety of shapes, but also a range of pulls, profiles, edges and finish options that fulfill functional requirements and allow for plenty of creative expression. Storage towers, especially when they have open shelving at the worksurface, keep binders, books and files in sight and top of mind.

Everything within reach.

A simple load bar puts all kinds of important items right at hand. Add organizers, trays, sorters, shelves and other accessories to lift papers, files and everyday items off the worksurface so it's open and ready for real work.

Be sure to check out the Kimball Office website or call your dealer for detailed information on all Footprint storage and desking options as well as lighting, accessories, Traxx and other products that enhance Interworks EQ and give you complete planning and design flexibility.

- 1 Sectional panel
- 2 Glass or pass-thru tiles
- 3 Fabric tiles
- 4 Power distribution assembly
- 5 Mid-wireway jumper
- 6 Mid-wireway cover
- 7 Receptacle
- 8 Data port
- 9 Stackable glass panel
- 10 Panel frame
- 11 Expanded polystyrene core
- 12 Fiberglass
- 13 Fabric
- 14 Tackable acoustical panel

Re-engineered for even more value.

Interworks EQ features several key enhancements that make installation easier, improve function and increase design possibilities.

- Electrical components are installed with a simple snap-in assembly and jumpers between panels to reduce installation time.
- Panels are made of an expanded polystyrene core, covered with fiberglass, surrounded by an aluminum frame, and finished with fabric.
- Sectional and stackable panels join our offering of standard tackable acoustical panels, giving you more options to make an aesthetic statement.

Interworks EQ has achieved GREENGUARD® indoor air quality certification for EQ tackable acoustical panels and stackable glass panels, which means choosing Interworks EQ can help contribute to LEED-CI points for indoor air quality.

Think beyond the cube.

Our flexible hinge is a single, universal part that lets you join panels at 90, 120 or 180 degrees, in one easy step. Let your office cluster take on a whole new shape.

e-magine it with Interworks EQ.

To help you plan, specify and visualize your new offices, ask your Kimball Office representative to bring it to life with our e-magine software. You can review finishes, floorplans and more.

CAD Details from Kimball Office makes design easy. Just go to our website, and you'll find furniture symbols that can simply be dragged and dropped into your CAD-based program. Inspiration, in the form of floorplans, renderings and product photos is also available.

Our commitment to sustainability.

Kimball Office and our parent company Kimball International have a long-standing commitment to sustainable practices in all of our operational, design and manufacturing procedures. This commitment is reflected in a wide range of management decisions, from using scrap lumber and sawdust to heat our buildings, to making wise material choices, building durable products that can be reconfigured and upgraded, and working with voluntary organizations such as the Green Building Council, which is dedicated to education and promotion of sustainable building practices. At Kimball Office, sustainable practices not only make good sense, they make good business.
